We believe that a HUNDRED YEARS is the natural age of man, and if we do not attain that age there is something wrong somewhere. WE DO NOT SAY that chiropractic will make you live a hundred years, nor that it cures cancer of the stemach or tuberculosis; but we do say that it has made remarkable cures in cases which were PRONOUNCED INCURABLE. Chiropractic restored health when all hopes had been lost. DEATH HAS NOT BEEN ABOLISHED, but if you have tried other methods, modes, cults or system of healing and have not received relief, you have tried the wrong thing.

"YOU ARE JUST AS OLD AS YOUR SPINE." Even back as far as Caesar's time this saying was used. In later years men substituted for it—"A man's just as old as he feels." Taking the two and combining the meaning, we have the true expression and CHIROPRACTIC interpretation—

"A man's just as old as his spine allows him to feel."

The spinal column is the main conduit through which the nerve cables pass from the brain, and from which the tiny feeders are distributed to every portion of the body.

If, through abnormal curvature, the bones of the spinal column obstruct the free flow of the health-giving currents from the brain to the bodily organs, disease results in the organs so affected.

The chiropractor adjusts the cause of the trouble, removes the pressure on the nerves without the use of Drugs or Knife.

This allows Nature to build up the diseased organs or tissues.

HEALTH IS NORMAL. DISEANE IS ABNORMAL. If there is any abnormal condition present in your body which is causing you suffering, let chiropractic bring back normal conditions so you may again enjoy good health.

At this part of the spine subjuxations will cause bronchitis, pains in and around shoulders, etc.

We guarantee to take any case of the drug or liquor addiction and cure it in from ten days to three weeks, according to the physical condition of the patient, by painless and harmless remedies, bearing all expense of treatment, board, room and attendant, if necessary, while in the Sanitarium, and not ask one cent of compensation for treatment, board or service until the patient is cured of the addiction and ready to return home. When the patient leaves the Sanitarium he will know that he is cured, and have no craving or desire for liquor or the drug. No other institution can, or will, make this proposition.
